Translucent printing	Backlit poster paper, white
	135-150 g/m <sup>2</sup>
	Both sides coated
	Grain-long

#### Grain-long

The F400LS Startower backlit posters are produced in digital printing on a single sheet of grain-long trimmed paper.

#### Paper

Unlike standard posters, backlit posters must guarantee transparency. They should be somewhat firmer, and should absorb as little moisture as possible. Backlit film, laminated on one side, is best suited for Startower F400LT posters. Please make sure the printer fully complies with the specified poster dimensions and exact cutting angles.
